

Black Label

From ease of use and versatility to superior protection and a premium aesthetic, Black Label will turn any surface into a beautiful masterpiece. Let's get into it:

- Apply on virtually any nonporous surface
- 1 Gallon goes up to 1200 Square Feet
- Easily install with various installation methods
- Protect your surfaces with superiority, Black Label is:
 - Extremely Hydrophobic
 - Color Enhancing
 - Extraordinarily Durable
 - Super Glossy
 - Heat resistant up to 900 degree F
 - Stain and Chemical resistant
 - And more!
- Get creative!
 - Apply on your floor, walls, hardscapes, metal, and more....
 - Rejuvenate a sun faded or weathered surface!
 - Bring back to life your fence, crafts, or even your vehicle's trim.

If you've heard of a ceramic coating for a vehicle, then you are one step closer to understanding the futuristic technology that BallistiX offers with Black Label. This is a film forming protective barrier that starts as a liquid and cures as a super thin solid. Imagine putting a shield on every surface you own.

For Porous surfaces, see the Ballistiseal Advanced info page.
